scegliere l'argento

Se da sempre è il metallo prediletto per la tavola e la casa, ci sono ottime ragioni per scegliere l'argento in oggetti d'arte e d'uso. Nobile e prezioso, il suo valore dura nel tempo, mentre la sua bellezza continua a rinnovarsi con l'utilizzo e con la cura, che ne restituisce il colore originale e il magico potere rilucente.

Per chi ama circondarsi di cose belle e preziose l'argento è un piacere raffinato, da condividere e tramandare, come le collezioni Schiavon, uniche per la qualità esclusiva e per il ricco repertorio di decori, per le lavorazioni ricercate e per il controllo diretto della produzione, tutta interna all'azienda di famiglia.

Silver has always been the most favoured metal for tableware and items for the home. There are excellent reasons for choosing silver art objects and silver household items. Exquisite and affluent, its value lasts over time, while its beauty is continually renewed through use and care, which restores its original colour and lovely sheen. Silver is simply perfect for those who wish to surround themselves with gorgeous, highly refined luxury items to be used on a regular basis and then handed down to the next generation. Just like the Schiavon collections that offer a unique and exclusive quality as well as a rich variety of decorations, superior craftsmanship, and meticulous and direct production control within a family-run business.

eccellenza italiana

Dal 1944 il maestro Angelo Schiavon si appassiona alla lavorazione dell'argento: l'Arte degli Oresi, che appartiene a Venezia da secoli, custodita in laguna e nell'entroterra, fino a Treviso e oltre.

Veneziani sono anche i primi estimatori dell'opera del giovane argentiere: un ottimo auspicio, se, nel tempo, la passione si trasmette ai figli, diventa tradizione familiare e, in oltre 60 anni, l'attività si evolve e cresce fino a occupare lo stabilimento di oltre 10.000 mq dove si concentrano tutte le fasi della produzione, diffusa ovunque nel mondo col suo prestigioso marchio.

In 1944 the artisan Angelo Schiavon began to dedicate himself totally to his great passion for the silversmith's art, known in Venice as Arte degli Oresi where for centuries the craft has been practiced both on the lagoon islands and the Treviso hinterland and beyond. The Venetians were also the first who appreciated the creative skills of the young silversmith, who consequently became very successful. He transmitted his passion to his children and developed a family tradition, which in over sixty years has expanded to include a manufacturing plant covering over 10.000 square metres where all the products are designed and created. Today, Schiavon is a prestigious brand-name whose products of timeless beauty are renowned throughout the world.

preziosa materia

Bianco e rilucente, metallo nato e nobile, l'argento si può ridurre in lamine e fili sottilissimi. Il suo potere riflettente fa scintillare le superfici e avvolge gli oggetti di una luce dolce, leggera e brillante. Nel linguaggio degli alchimisti ha il simbolo della luna crescente: femminile, cangiante, tenero. Per essere lavorato si fonde col rame in leghe la cui purezza è certificata nei titoli 800 e 925. Atossico e antibatterico, l'argento non altera sapori e odori ed è presente negli oggetti d'uso dal mondo antico fino ad oggi.

Silver has a brilliant white lustre and can be rolled into sheets and drawn into wires of filmy thinness. Silver is highly reflective, making surfaces shimmer, and giving objects a very special soft yet brilliant sheen.

In the alchemy language its symbol is the crescent moon: feminine, lustrous, gentle. To be worked silver must be alloyed with copper. The purity of the alloy is certified as 800 or 925 sterling silver. Silver is non-toxic and antibacterial; it does not alter flavours or fragrances nor the taste of food or beverages. Since ancient times to the present, silver has been used to create fine tableware and objects for the home.

saperi dell'artigiano

Un oggetto d'argento Schiavon racconta l'incontro fra manualità e tecnologia, tradizione e innovazione, talento e ricerca. Esprime l'unità fra mente, mano e utensile che si compie negli abili gesti dell'artigiano argentiere, nella lavorazione minuziosa e sapiente di ogni dettaglio: cesellatura finissima e sbalzo, incisione, traforo, o speciali lavorazioni di metallo argentato interpretano il repertorio della tradizione attraverso disegni originali. Tutti gli oggetti, dalla tavola alla casa, recano impresso il punzone Schiavon, garanzia di una qualità altissima dell'arte argentiera italiana.

A silver object made by Schiavon is the result of the combination of manual skills and high-tech expertise, tradition and innovation, talent and in-depth research.

It expresses the unity of the mind and hand, and the tool the artisan uses to accomplish intricate decorations with great precision: fine chasing, repoussé, engraving, pierced fretwork, or special silver-plating techniques that interpret the repertoire of tradition with original designs. All the objects - from tableware to home decor items - bear the Schiavon stamp, which guarantees the highest quality Italian silversmith expertise.

I decori cesellati e in rilievo, a volute fogliate e intrecciate, possono essere dorati o parzialmente dorati: la preziosa lavorazione artistica accentuata dal contrasto cromatico fra i due nobili metalli conferisce ancora più sfarzo alle posate del servizio Barocco.

The chiselled parts and relief decorations featuring entwined leafy swirls can be either partially or fully gilded. Precious artistic decorative motifs highlight the contrasting colours of the two precious metals, offering the Barocco collection a heightened look of luxury.

Decò

L'Art Decò infonde nuova vita al repertorio stilistico degli anni venti e s'impone nell'arte decorativa con un linguaggio innovativo ancora oggi attualissimo, per la stilizzazione delle forme, le figure squadrate, le linee snelle e sinuose che sono rivisitate con passione e sapiente abilità manuale nel servizio Decò.

Decò revives the stylistic trend of the Twenties whose decorative characteristics are still very popular to this day. In Decò the stylized shapes, straight lines and slender sinuous curves of Art Deco have been remodelled by highly qualified artisans with a passion for excellence.

partially gilded

Giocando sulla combinazione dei colori e dei riflessi dell'oro e dell'argento, la speciale doratura parziale ad alto spessore sottolinea i più minimi dettagli nel disegno della foglia d'acanto e la squisita lavorazione a rilievo del prezioso decoro.

A gorgeous combination of mirroring tones of gold and silver and a special, very thick partial gilding, which highlights even the most minute details of the exquisite acanthus leaf decoration in relief.

Impero

Foglie e palmette stilizzate sono i ricchi motivi ornamentali che corrono lungo i bordi dei servizi

Impero, ispirato ai fasti napoleonici. Lo stile neoclassico, con i profili regolari e i rilievi ben marcati, è interpretato in chiave raffinata e discreta per una tavola di grande eleganza.

The ornamental stylized palm and leaf motif along the edges of Impero was inspired by the grandeur of the Napoleonic empire. The typical shapes and precise relief patterns of the neoclassical style are interpreted with the maximum of finesse and luxury, making Impero simply perfect for those who wish to create extremely elegant table settings.

Impero

parzialmente dorato
partially gilded

Alla ricchezza del motivo decorativo, che evoca lo stile neoclassico e l'impero di Napoleone, si aggiunge il lusso della speciale doratura ad alto spessore che segue il bordo ben definito delle posate, per brillare in una mise en table sontuosa.

The elaborate decorative pattern – which recalls the neoclassical style and Napoleonic empire – is further enhanced by a special, very thick partial gilding along the well-defined edges of the cutlery pieces in order to make them brilliantly highlight the most lavish and fabulous settings.

Conchiglia

Il servizio Conchiglia evoca la grande tradizione marinara italiana con un motivo decorativo del mondo antico, la conchiglia pennata, che rimanda anche al repertorio figurativo settecentesco e, con la minuta lavorazione dei bordi orlati e in rilievo, conferisce alle posate una grazia raffinata.

The Conchiglia set evokes Italy's outstanding marine traditions. Its decorative shell motif was inspired by the eighteenth-century figurative repertoire, with minutely crafted edging and relief work that makes every individual piece a statement of refinement.

Conchiglia

parzialmente dorato
partially gilded

Nella sfarzosa variante con la speciale doratura ad alto spessore, argento e oro disegnano insieme il bordo in rilievo della conchiglia pennata, minuziosamente rifinita, e portano sulla tavola più sofisticata il calore del sole e la luce del metallo di luna.

Splendid Conchiglia version featuring a very thick partial gilding. In this version both silver and gold delineate the edging of the refined relief shell motif, providing the most sophisticated table settings with the warmth of the sun and the lustre of the moon metal.

Spagnolo

Nello stile minimal chic del servizio Spagnolo domina una linearità elegante ed essenziale che ispira armonia e dolcezza; l'assenza di decorazioni fa risaltare la forma snella e morbida e la preziosa superficie liscia e lucida delle posate che invitano a toccarle, prenderle in mano, usarle.

Spagnolo is the epitome of minimalist essentiality. Superbly elegant, its design evokes a sense of harmony and sophistication. The lack of decorative elements highlights the slender lines of the cutlery pieces, and the smooth, lustrous surface simply makes you want to touch them, hold them in your hand and use them.

America

Il servizio America è pensato per chi ama il segno contemporaneo, quel tocco particolare che denota una personalità forte e decisa, come le scanalature ben marcate che, incise su coltello, forchetta e cucchiaino creano un effetto plastico protagonista di una tavola elegante e originale.

America was created for those who love up-to-the-minute class: that special touch denoting a self-confident, assertive character. Like the well-defined grooves engraved on the knife, fork and spoon that create an attention-grabbing effect for highly original and refined table settings.

Francese

Sofisticato ed esclusivo, il servizio rielabora la tradizione francese. Una preziosa modanatura corre lungo il bordo sagomato delle posate e raccoglie la minuziosa decorazione in rilievo, a conchiglia e a volute fogliate. Eleganza e leggerezza, per connotare una ricercata mise en table.

Sophisticated and utterly elite, this collection was inspired by the French tradition. The outline is beautifully etched and enfolds an ornate decoration with shell and swirls in relief. Francese is extremely chic and just perfect for exclusive table settings.

Barocchino

Il servizio Barocchino interpreta lo stile fantasioso e libero diffuso fra Barocco e Rococò: i decori maestosi si fanno fluidi, leggeri e un prezioso filo continuo traccia le linee curve delle posate, con la sagomatura tripartita alle estremità. Perfetto sia per una tavola classica o informale.

The Barocchino set interprets the graceful, imaginative style in vogue between the Baroque and Rococo periods. The decoration is elegant and lithe with a lovely continuous line that traces the contours of the pieces and greatly highlights the tripartite shape of the ends. Ideal for both classic or informal occasions.

Scudo

Nella forma pulita ed essenziale del servizio Scudo si riconoscono la forza e l'eleganza degli stilemi settecenteschi. La sagomatura delle posate acquista però un valore completamente rinnovato nella purezza e continuità delle linee, che accentuano la preziosità della liscia materia rilucente.

Superbly refined and essential, Scudo features the verve and elegance of eighteenth-century styles. Nonetheless, the shape of the cutlery is totally new - in terms of sleekness and continuity of the lines - greatly highlighting the very smooth, polished surface.

San Marco

Rimanda alla delicata raffinatezza del Settecento veneziano il servizio San Marco, che prende il nome dal tipo di coltello, con la lama a sciabola, mentre la forchetta a tre punte rievoca i secoli precedenti e gli splendori della Serenissima Repubblica.

The San Marco set recalls the subtle refinement of eighteenth-century Venetian style and takes its name from the knife featuring a sword-shaped blade. The unique three-pronged fork instead takes us back to the earlier centuries and the splendid era of the Most Serene Republic of Venice.

Inglese

Nello stile inconfondibile dell'argenteria inglese il carattere di eleganza si è venuto affinando nei secoli fino ad oggi e si esprime nei modelli ben riconoscibili, nei semplici decori a filettature parallele che corrono impeccabili lungo i bordi: dai servizi da tè, da caffè, da tavola, da bar, ai candelieri e ai preziosi vassoi, cesti e vasi.

Inglese proposes the distinctive flair of English silverware. Its style has constantly been remodelled over the centuries and is now expressed with distinguished elegance and essential decorations featuring parallel threads along the edges. The proposals range from tea sets, coffee sets, table sets and bar sets, to candle-holders, exquisite trays, baskets and vases.

Ottagonale

Nella purezza delle linee geometriche, che accentuano la preziosità della liscia materia rilucente, si rinnovano stili e figure della tradizione: forme morbide e sinuose per i volumi, linee regolari e simmetriche per i bordi. Il particolare decoro a modanatura multipla segue i profili ben marcati e sottolinea il carattere contemporaneo degli oggetti della collezione Ottagonale.

The purity of the geometric lines accentuates the smooth, lustrous elegance of this model featuring revamped time-honoured styles and contours: soft, sinuous shapes for the surface, sleek symmetrical lines for the edges.

The decoration featuring multiple edging along the well-defined profile highlights the contemporary character of the Ottagonale collection.

Impero

La minuziosa decorazione di foglie e palmette stilizzate caratterizza la collezione Impero, con la preziosa modanatura che corre lungo i bordi di vassoi, brocche, candelieri e dell'ampia scelta di oggetti per chi ama forme e figure evocative dello stile della corte napoleonica: il lusso e lo sfarzo dei palazzi imperiali, il rigore delle linee e dei decori ben marcati.

An ornamental stylized palm and leaf motif characterizes the Impero collection with an exquisite pattern around the edges of trays, jugs, candleholders, and a vast array of practical objects. This collection was created for those who love the shapes and styles of the Napoleonic era: the luxury and opulence of the imperial palaces, the meticulous lines and highly delineated decorations.

Barocco

Volute intrecciate, nastri e foglie d'acanto, ghirlande e conchiglie; decori in rilievo, a sbalzo e cesello: nella collezione Barocco di Schiavon il gusto della scultura si esprime nella preziosa lavorazione artistica, nel repertorio di forme e figure della tradizione argentiera del tardo Seicento e Settecento, un patrimonio inesauribile interpretato con sapienza e passione.

Decorations featuring entwined swirls, ribbons and acanthus leaves, garlands and shells, in relief, repoussé or chiselled. In Schiavon's Barocco collection, the sculpting skills superbly express the artistic shapes and patterns of the silversmith traditions of the late seventeenth century and eighteenth century: an inestimable heritage interpreted with passion and expertise.

Linea

È una speciale collezione dedicata alla tavola, creata solo in metallo argentato per oggetti d'uso quotidiano, nei quali convivono bellezza e funzionalità. Il metallo argentato trova combinazioni con altri materiali: col cristallo, il pirex e le porcellane da forno. Per maggiore praticità i manici sono spesso anche in bamboo, naturale: piacevole al tatto, il suo colore si sposa perfettamente con la luce del metallo di luna.

Linea is a special range featuring only silver-plated tableware for everyday use that perfectly combines beauty and functionality. The silver plate is conjoined with other materials like crystal, Pyrex and oven-proof porcelain. For enhanced ease, the handles are often made of natural bamboo: pleasant to the touch, its colour perfectly matches the lustre of the moon metal.

Nel suo evolversi e perfezionarsi fra tradizione e innovazione, l'arte argentiera Schiavon incontra il contemporaneo: ne nascono collezioni di oggetti dalla presenza discreta e raffinata, con forte impatto scenico. La lucentezza del metallo argentato enfatizza i volumi nitidi e rigorosi, sottolineati anche da originali e sorprendenti accostamenti con lacche colorate.

In striving to develop its creations via tradition and innovation, Schiavon's silversmith art interacted with contemporary design. The result was a collection of stylish objects with strong visual impact. The brilliance of the silver-plated items emphasizes the refined, rigorous volumes, which are further enhanced by remarkably original combinations of vibrant-toned varnishes.

Opere di altissima manifattura, gli oggetti della collezione di argenti d'arte Schiavon rimandano ai legami storici fra arte argentiera e pittura, scultura, architettura. Delfini, putti, cigni, motivi naturalistici e mitologici: Schiavon interpreta il repertorio figurativo della tradizione con le antiche tecniche dell'artigianato artistico di cesello e sbalzo, incisione, traforo, che esaltano la luce preziosa della materia, la sua leggerezza, la perfezione in ogni dettaglio.

The objects of Schiavon's artistic Argenti d'Arte collection are works of the finest artisan expertise that call to mind the historic relations linking the silversmith's art to painting, sculpture and architecture. Dolphins, cherubs, swans, nature and mythological motifs: Schiavon interprets the repertoire of the figurative arts with age-old artisan techniques – such as chasing, repoussé, engraving and fretwork – in order to highlight the finesse and exquisite lustre of silver, creating perfection in every detail.

Cura e manutenzione dell'argento
Care and maintenance

Posateria
Il consiglio migliore è quello di utilizzare la posateria tutti i giorni: un regolare lavaggio, infatti, evita l'ossidazione e fa sì che le posate si rivestano di una caratteristica patina luminosa, dal colore bianco-luna.

Un corretto lavaggio può senz'altro prevedere la lavastoviglie; nei casi in cui non fosse possibile lavare le posate subito dopo l'uso, è buona norma riporle in una vaschetta con acqua tiepida e poco detergente, rimuovendo così i residui di cibo che possono danneggiare il metallo. Si passerà poi al lavaggio in lavastoviglie seguendo semplici accorgimenti.

Non incrinare la coppia di posate da insalata e da caviale, in quanto la loro estremità in corno naturale non resiste alle alte temperature;

prevedere un programma di lavaggio non aggressivo, con una temperatura dell'acqua di massimo 40°-45°; al termine del lavaggio, consigliamo di socchiudere la lavastoviglie affinché le posate possano tornare gradatamente alla temperatura ambiente; prima di riportarle, passare velocemente un panno morbido per assicurare una perfetta asciugatura.

Nel caso di lavaggio manuale, utilizzare spugne morbide non abrasive e detergente delicato, sciacquare con cura e asciugare perfettamente.

Cutlery

We recommend that you use your cutlery on a daily basis. Regular cleaning in fact prevents

tarnishing and makes the silver acquire a lovely, lustrous-white sheen.
Schiavon cutlery is dishwasher safe. However, if the cutlery pieces cannot be washed immediately after use they should be placed in a basin with lukewarm water and a small amount of detergent in order to remove any food particles that could scratch the silver. Later on you can place them in the dishwasher, remembering to proceed as follows:

Never place the salad servers and caviar servers with parts in genuine horn in the dishwasher because they cannot withstand high temperatures; operate the dishwasher using a delicate cycle and do not exceed the maximum temperature limit and open the dishwasher again as the washing cycle ends in order to let the cutlery gradually cool down to room temperature; wipe the cutlery pieces with a soft cloth to ensure they are perfectly dry before you store them away. If you should wash the cutlery by hand we recommend that you use a soft, non-abrasive sponge and a delicate, dishwashing detergent; after washing, rinse the cutlery pieces with care then wipe with a soft cloth until perfectly dry.

Argenteria

Tutta l'argenteria che entra in contatto con cibo e liquidi deve essere pulita dopo l'utilizzo; se non è possibile effettuare subito il lavaggio, è però necessario rimuovere prontamente i residui di cibo e liquidi con una spugnetta imbevuta d'acqua tiepida e saponata delicata. Si passerà poi al lavaggio come d'abitudine, in lavastoviglie o a mano, seguendo le istruzioni riportate per il lavaggio della posateria.

Silverware

All the items that come in contact with food and liquids must be washed after use.

However, if the items cannot be washed immediately after use you must promptly remove any food particles with a sponge soaked in lukewarm water and delicate detergent. You can then proceed to wash them in the dishwasher or by hand (following the washing instructions for cutlery provided herein).

Cornici

Le cornici d'argento Schiavon sono accuratamente sottoposte a un trattamento protettivo antiossidante, che ne garantisce la lucentezza e impedisce l'ossidazione della superficie; è pertanto necessario soltanto un panno morbido per spolverare saltuariamente la cornice, senza fare nient'altro.

Photo frames

Schiavon silver photo frames have all strictly undergone an anti-oxidation process that prevents tarnishing and guarantees they maintain a brightly polished finish. Therefore, you only need to wipe the frames with a soft cloth every once in a while to remove any dust.
